SUMMARY

Software Developer coding since 2020, specialising in Telegram bots, web applications, automation systems and AI integrations. Hands-on Business Intelligence experience with Power BI and MS SQL Server. Focused on clean architecture, security and performance.

EXPERIENCE

Business Intelligence (BI) Developer 2025 — Present
[Maab Innovation](#)

- Built interactive Power BI dashboards and reports for business stakeholders
- Optimised MS SQL Server queries, views and data models
- Implemented business metrics and KPI calculations with DAX
- Automated recurring reporting workflows and reduced manual effort

Freelance Software Developer 2022 — Present
[Independent projects](#)

- Delivered Telegram bots and automation solutions for clients
- Designed REST API integrations and relational database schemas
- Shipped projects to production with Railway and Docker

PROJECTS

Energy Invest 2025 — 2026
Telegram Mini App platform for managing investment projects: user cabinet, admin panel, analytics and automated customer service. Stack: Python, FastAPI, aiogram, SQLite, Railway.

Bunker Bot 2026
Multiplayer game bot with 1000+ users: automatic role dealing, daily voting system, admin panel and match statistics. Stack: Python, aiogram 3, SQLite, Railway.

BondTrader 2026
Bond analytics and trading assistant (demo release). Stack: Python, FastAPI, PostgreSQL, Next.js.

SKILLS

Programming languages Python, JavaScript, TypeScript, PHP, C++, SQL
Backend FastAPI, aiogram, Node.js, REST API, Webhooks
Frontend React, Next.js, TailwindCSS, HTML5, CSS3
Databases PostgreSQL, SQLite, MS SQL Server, Prisma ORM
BI & analytics Power BI, DAX, MS SQL Server, Excel
DevOps & tooling Git, GitHub, Docker, Railway, Linux
Networking Cisco (routing, switching, VLAN)

EDUCATION

Tashkent State University of Economics

2024 — 2028

BSc — Digital Economy (Artificial Intelligence)

LANGUAGES

- Uzbek — native
- Russian — advanced
- English — advanced
